

Technical & Vocational Courses

Conductor Rail Heating

This course is designed to train persons who are responsible for undertaking Conductor Rail Heating: Strip Installation and Maintenance.

Course Type

Personal Protective Equipment

Conductor Rail Heating Eltherm Control Panel Maintenance

Provides knowledge and skill required for the maintenance of Eltherm control panels.

Course Type

Face to Face

Conductor Rail Heating -Heating Strip Installation and Maintenance

Installing and maintaining heating strips on conductor rails.

Course Type

Face to Face

Conductor Rail Heating LCS Control Panel Maintenance

Maintenance of LCS control panels.

Course Type

Face to Face

DC Electrified Lines - Level A Machine Switch Out

Training covering the executing switch outs on DC lines.

Course Type

Face to Face

DC Electrified Lines - Procedure A Level A Authorised Persons

Executing isolations on DC lines.

Course Type

Face to Face

DC Electrified Lines - Procedure B Level A Authorised Person

Focus on Procedure B Level A on DC lines.

Course Type

Face to Face

DC Electrified Lines - Procedure B Level A Nominated Person Merseyrail

Training on the role of the Nominated Person on DC lines.

Course Type

Face to Face

DC Electrified Lines - Switching - Level 'B'

Covers local isolations of DC lines.

Course Type

Face to Face

DC Electrified Lines - Temporary Isolations

This training covers temporary isolations of DC lines.

Course Type

Face to Face

DC Electrified Lines Testing and Strapping - Level 'B'

Focusing on testing and strapping on DC lines.

Course Type

Face to Face

DC Traction Cables & Bonding Systems Maintenance

Covering the maintenance and testing of DC Traction Cables and Bonding Systems.

Course Type

Face to Face

DCCR Induction

Covering the installation and inspection of DC conductor rails.

Course Type

Face to Face

Direct Current Conductor Rail - Advanced Maintenance

To provide an enhanced understanding and practice the installation or replacement of DC Conductor Rail and associated components.

Course Type

Face to Face

Direct Current Conductor Rail – Basic Maintenance

To provide a basic understanding and practice the installation and maintenance of Conductor Rail equipment and associated components.

Course Type

Face to Face

Inspection of DC Traction Cables and Bonding Systems

Training covering the inspection of DC Traction Cables and Bonding Systems.

Course Type

Face to Face

Inspection of the DC Conductor Rail Infrastructure

Training on effective inspections for the DC infrastructure.

Course Type

Face to Face

OLE Restoration Tasks

Course Type

Prerequisite Qualifications - Specialist Venue - Personal Protective Equipment - Mandatory Prerequisite - Blended Training - Face to Face

Safer DC Isolations: Maintenance of NSCD

Covering the maintenance of NSCD and isolations.

Course Type

Face to Face

Safer DC Isolations: Operation of NSCD - ECO

Covers the role of ECOs in DC isolations.

Course Type

Face to Face

Safer DC Isolations: Operation of NSCD - Local Control

Covering the local control of isolations on DC lines.

Course Type

Face to Face

Safer DC Isolations: Operation of NSCD - Overall Management

Focusing on the management of isolations on DC lines.

Course Type

Face to Face

The Effective Progression of DC Conductor Rail Maintenance or Renewal Activities

Course Type

Face to Face

Track Feeder Switch Operator

This course is designed to develop knowledge, understanding and skills of persons who are responsible for operating Track Feeder Switches

Course Type

Prerequisite Qualifications - Specialist Venue - Personal Protective Equipment -
Mandatory Prerequisite - Blended Training - Face to Face
