Focusing on the maintenance of Furrer & Frey OLE.

Course Type

Face to Face - Personal Protective Equipment

Level A (Nominated) Person for OLE AC Isolation

Covers the responsibilities associated with the role of the AC Nominated person.

Course Type

Face to Face - Personal Protective Equipment

Level B (Authorised) Person for OLE AC Isolation

An introduction to the role of an Authorised Person in OLE.

Course Type

Face to Face - Personal Protective Equipment

Live Working Form SAI

Course Type

Elearning

Nominated Person (SAI)

Course Type

Face to Face

Nominated Person Sunderland 1500v DC

Nominated Person training for the Sunderland 1500v DC overhead line system.

Course Type

Face to Face - Personal Protective Equipment

NP Distribution Interfaces

Course Type

Face to Face

OLE Autotransformer Module

An additional element to AC Levels A and B.

Course Type

Face to Face - Personal Protective Equipment

OLE Camera

Familiarisation with the pole mounted camera and techniques used to inspect the OLE infrastructure.

Course Type

Face to Face - Personal Protective Equipment

OLE Construction for Maintenance 1

A comprehensive course which covers the principles, planning and activities associated with the construction of the OLE infrastructure.

Course Type

Face to Face - Personal Protective Equipment

OLE Maintenance 1

Provides an appreciation of OLE maintenance and non-intrusive inspections.

Course Type

Face to Face - Personal Protective Equipment

OLE Maintenance 2

Building on the OLE Maintenance 1 course and providing an introduction to high-level intrusive inspections.

Course Type

Face to Face - Personal Protective Equipment

OLE Maintenance 3

Develops on the knowledge and skills covered on the OLE Maintenance 1 and 2 courses.

Course Type

Face to Face - Personal Protective Equipment

OLE Maintenance Induction

An introduction to the maintenance of OLE.

Course Type

Face to Face - Personal Protective Equipment

OLE Skills Fade

The course addresses practical, technical and theoretical OLE skills fade.

Course Type

Face to Face

OLE Technical Assessment

Designed to train persons whose work involves technical assessment of OLE infrastructure and associated components.

Course Type

Face to Face

Palfinger Wire Manipulator Module

Training on Palfinger Wire Manipulator.

Course Type

Face to Face - Personal Protective Equipment

Single Approach to Isolation Pre-Learning

Course Type

Elearning

Windhoff High Output Wiring Train Operator Training - Basket Operator

Training for undertaking Contact Wire Renewals using the Windhoff Wiring Train system.

Course Type

Face to Face - Personal Protective Equipment

Windhoff High Output Wiring Train Operator - Unit 1 Recovery

Covers Contact Wire Renewals using the Windhoff Wiring Train system.

Course Type

Face to Face - Personal Protective Equipment

Windhoff High Output Wiring Train Operator - Unit 1&3 Pod Driver

Covering Contact Wire Renewals using the Windhoff Wiring Train system.

Course Type

Face to Face - Personal Protective Equipment

Windhoff High Output Wiring Train Operator - Unit 3 Tensioning

Covers understanding and skills on the safe and effective operation of the Windhoff High Output Wiring Train.

Course Type

Face to Face - Personal Protective Equipment

Zeck Wiring Train Unit BM 1400/2x2 Module

Training on Zeck Wiring Unit BM 1400 2x2.

Course Type

Face to Face - Personal Protective Equipment
