

Infrastructure & Engineering

Course Name

City & Guild 2391-51 Level 3 Award in Period Inspection, Testing & Certification

Course Description

Any delegates wishing to attend this course ideally would have completed the C&G 2382 (17th Edition) prior to July 2018 or the C&G (18th Edition) from July 2018 onwards, if not, completed any of the C&G 2382 courses although, though this is not a mandatory entry requirement. Ideally the delegate will be electrically aware/or working in a similar environment.

Audience

This course is suitable for domestic installers and electricians who wish to carry out periodic inspections and testing plus associated certification. If candidates have no previous testing experience then they are still able to take the course but are advised to attend the 6 day course that includes an extra two days training immediately before the course date. We strongly recommend that candidates have the City & Guilds 2382 prior to taking this course, though this is not a mandatory entry requirement.

Duration: 4 Days Day(s) **Class Size:** 9
