Signals and Telecoms

Course Name

GSM BTS 9000

Course Description

This course will introduce telecommunications personnel to the maintenance procedures of the BTS 9000 indoor. The second section gives a more detailed description of the main modules, and the operation of the BTS. The last section provides a description of the TIL terminal which will be used for local maintenance when a solution is not possible from the OMC-R to repair a faulty equipment.

Audience

Telecoms technicians and engineers who will be required to maintain and fault find the BTS 9000 equipment.
