Railway Operations

Course Name

Luminate Traffic Management - Train Running Controller & Shift Signalling Manager

Course Description

This course teaches Network Rail Train Running Controllers (TRC) and Shift Signalling Managers (SSM) how to operate and apply the Luminate Traffic Management System. (Luminate).
This system was introduced as part of the Digital Railway Programme, to support more efficient service recovery and more use of available infrastructure.
Learners will understand how the system enables staff to make informed planning and re-planning decisions, in conjunction with other data sources such as ITPS for timetable information, TRUST arrival
time forecasts and IECC Scalable for train movements and positional information.

Audience

Train Running Controllers (TRC) and Shift Signalling Managers (SSM) who use the Luminate Traffic Management system in their local area of control.

Duration: 3 Day(s) **Class Size:** 4-8
