

Overhead Line Engineering

Course Name

Nominated Person (SAI)

Course Description

This course includes new updates to the Nominated Persons training that is required as part of the Enhanced Risk Assessment process detailed in NR/L3/ELP/SAI25. Delegates will gain a understanding of the risk assessment process for residual electrical hazards and appropriate control measures. People wanting to attend this course will need to complete pre-learning Single Approach to Isolation Pre-Learning.

Audience

People who hold Nominated Person

Duration: 2 Day(s) **Class Size:** 8
